# Central Invoicing Agreement for Participating Organisations

**Effective Date:** 1 January 2023

**Parties:**

**Frontiers Media SA**, a Swiss corporation (no. CH-550.1.053-.916-3) having its principal place of business at Avenue du Tribunal Fédéral 34, 1005 Lausanne, Switzerland (**Frontiers**), and

the respective **Participating Organisations** set forth in **Annex 2** hereto (**Participating Organisations**), duly represented via a power of attorney and as updated from time to time by the Consortium of Swiss Academic Libraries, c/o SLSP AG, Kasernenstrasse 77 A/B CH-8004 Zürich, Switzerland (**CSAL**).

## Background

The Parties, who wish to record the terms of their agreement concerning the provision of an Open Access publishing solution to researchers in Swiss organisations and their respective organisations, and a process for central invoicing and payment for this solution and associated services, agree to the terms set out in this Agreement.

## Agreed Terms

### 1. Definitions

In this Agreement, including its Annexes, the following definitions apply:

**Article Processing Charge** or **APC**: the charge made by Frontiers associated with publication of an article.

**Eligible Author**: a corresponding author of a given article (being the author who submits an article in his or her name, or as the representative of multiple co-authors, to Frontiers) who is affiliated to a Participating Organisation at the time of submission of that article.

**Eligible Article**: an article for which a Participating Organisation agrees (via an “article eligibility verification procedure”) to be invoiced for, and pay, its Fixed APC centrally, should the article be accepted for publication. By default, an article accepted for publication during the term of the Agreement by an Eligible Author is an Eligible Article.

**Fixed APC**: a fixed-amount APC based on article category, applied to Eligible Articles pursuant to this Agreement.

**“Hosted Journal(s)”** refers to journals owned by a third-party which are published by Frontiers.

**Participating Organisation:** an organisation which has been confirmed by CSAL as a Participating Organisation under the terms of this Agreement.

This agreement is intended for academic, non-profit, state-funded research organisations (and their state funders) and government agencies in Switzerland. All members and customers of the CSAL as listed in **Annex 3** are eligible to participate in this Agreement.

## **2. Formation and Status of this Agreement**

This Agreement is constituted by this document and the attached Annexes which form an integral part of this Agreement.

## **3. Eligibility and Participation**

All organisations which are listed in **Annex 3** and which, during the term of this Agreement, are confirmed in writing by CSAL to Frontiers as being represented by CSAL and having agreed to the terms of this Agreement, will, immediately upon such confirmation, be added to **Annex 2** and will thus become Participating Organisations under this Agreement and will be entitled to enjoy the rights, and shall be subject to the obligations, set out in this Agreement as from the time of receipt by Frontiers of such written confirmation, or if specified otherwise by CSAL, as from a specific later date. Participation by a future CSAL member is at the discretion of Frontiers. For avoidance of doubt, participation will not be refused to any future member that is an academic, non-profit, state-funded research organisation or a government agency based in Switzerland.

## **4. Frontiers' Undertakings**

Frontiers undertakes, for the duration of this Agreement (and, in respect of each Participating Organisation, for as long as it has that status) to comply with its obligations as set out in this Agreement, including but not limited to the Fixed APCs.

## **5. Undertakings of Participating Organisations**

Each Participating Organisation undertakes, for the duration of its participation in this Agreement, to comply with its obligations as set out in this Agreement, including providing point(s) of contact for the Participating Organisation concerned.

## **6. Communication of this Central Invoicing Agreement**

CSAL agrees to inform its members of the possibility of becoming a Participating Organisation under this Agreement annually.

## **7. Term and Termination**

- a. This Agreement enters into force on **1 January 2023** and shall end on **31 December 2023**.

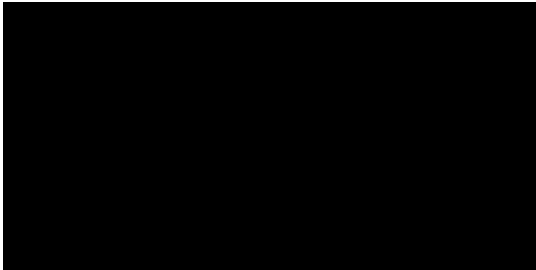

- b. CSAL confirms that it has the authority via power of attorney to enter into this Agreement on behalf of the Participating Organisations and to make them parties to this Agreement.
- c. Any Participating Organisation may terminate its participation in this Agreement by written notice with immediate effect if Frontiers (i) commits a material breach of this Agreement and fails to remedy that breach within 30 days following written notice by the terminating Party, specifying the breach and requiring that it be remedied; or (ii) is unable to pay its debts as they become due, or ceases or threatens to cease to carry on business, goes into administration, receivership or administrative receivership, or any event analogous to any of the foregoing occurs in any jurisdiction.
- d. Frontiers may terminate this Agreement in respect of any Participating Organisation by written notice with immediate effect if that Participating Organisation (i) commits a material breach of this Agreement and fails to remedy that breach within 30 days following written notice by Frontiers, specifying the breach and requiring that it be remedied; or (ii) is unable to pay its debts as they become due, or ceases or threatens to cease to carry on business, goes into administration, receivership or administrative receivership, or any event analogous to any of the foregoing occurs in any jurisdiction.
- e. Any credit remaining in the Pre-Payment accounts (as described in subsection “Payment and Advance Payment Scheme” in section “1.2. Financial Terms” in Annex 1) at the effective date of expiration or termination shall be refunded by Frontiers to CSAL within two months after the date of expiration or termination. Alternatively, CSAL may choose to use that credit for a new agreement. If there is a net amount owed to Frontiers, CSAL will pay that amount within 30 days of receiving a corresponding invoice issued by Frontiers.
- f. Under no circumstances shall either Party be liable for any consequential, indirect, or special losses howsoever arising or for any loss of profits, revenue, interest, goodwill, business and/or savings.

## 8. Dispute Resolution

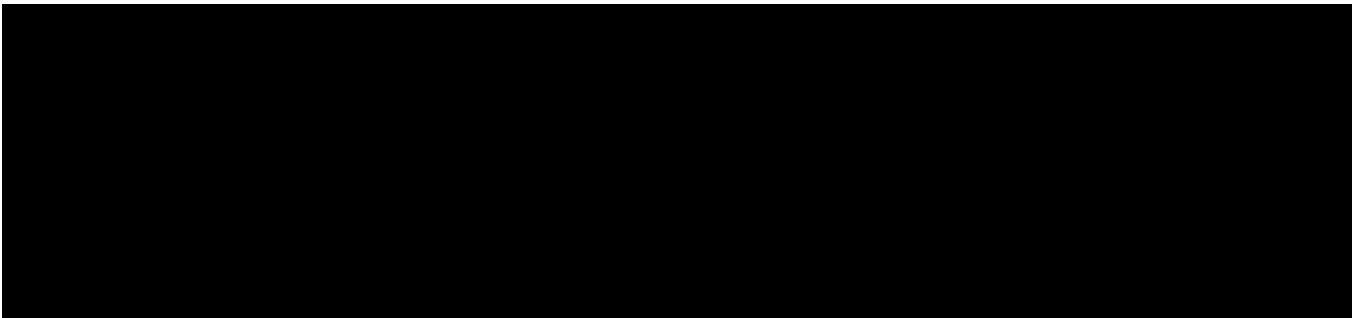

- a. This Agreement is governed by the laws of Switzerland.
- b. The Parties will in good faith attempt to negotiate to resolve any issues or disputes arising, and if necessary, to escalate matters internally.
- c. To the extent that any issues or disputes cannot be avoided or resolved as described in b above, such disputes shall be subject to the jurisdiction of the courts of Zürich, Switzerland.

Signed on the date(s) set out below.

**CSAL for itself and on behalf of the Participating Organisations via power of attorney**

**Frontiers Media SA**

**Annexes:**

**Annex 1:** Terms for Central Invoicing

**Annex 2:** List of Participating Organisations

**Annex 3:** Members and Customers of the Consortium of Swiss Academic Libraries

**Annex 4:** Advance Payment Scheme

**Annex 5:** Frontiers Journal List

## Annex 1 – Terms for Central Invoicing

### 1.1 General Terms

These terms form part of the Open Access Publishing National Framework Agreement and this is **Annex 1** referred to in the body of that Agreement.

#### Summary of terms

- a) Subject to Fixed APCs which may vary by Participating Organization, equal terms apply to all Participating Organisations, regardless of their size or research output.
- b) The initial Participating Organisations listed in **Annex 2** participate as of **1 January 2023**.
- c) Article Processing Charges (APCs) for Eligible Articles are no longer paid by those authors but replaced by a Fixed APC paid centrally by CSAL (which will recover it from the respective central libraries or departments of the Participating Organisations).
- d) Each Participating Organisation will be able for each article submitted during the term of the Agreement – after article submission, during the review process – to verify (confirm or decline) whether the article is eligible for the benefits provided by this Agreement, and, if confirmed, it shall be attributed to the Participating Organisation's pre-payment account, as long as the article is accepted for publication.
- e) For Participating Organisations, standard Frontiers APCs will be replaced with the Fixed APCs indicated in **Annex 4**.
- f) For Eligible Articles, there are no other costs charged by Frontiers other than the Fixed APCs.

### 1.2 Financial Terms

#### Costs

- a) The only costs Frontiers attributes to the Participating Organisations' pre-payment accounts under this Agreement are those for Fixed APCs for Eligible Articles accepted for publication. Rejected articles do not incur any fees or costs.
- b) If a Participating Organisation declines to cover the Fixed APC for a given article, Frontiers will invoice the corresponding author the ordinary APCs generally applicable at such time outside of the special terms set forth in this Agreement.
- c) Any other paid services provided by Frontiers upon request of authors fall out of the scope of this Agreement.
- d) Eligible Articles covered by a Fixed APC will not be eligible for any other discounts or waivers.

#### Article types

Frontiers currently defines article types as set out below. Frontiers may have to update the lists of article types and/or introduce new article types as publishing practices evolve. Any change will be announced on Frontiers' website.

**The following article types undergo a full peer review:**

A-Type Articles: Clinical Trial, Hypothesis & Theory, Methods, Original Research, Policy and Practice Reviews, Review, Systematic Review, Study Protocol, Technology and Code, Registered Report

B-Type Articles: Brief Research Report, Case Report, Community Case Study, Conceptual Analysis, Curriculum Instruction and Pedagogy, Mini Review, Perspective, Policy Brief

C-Type Articles: Data Report, General Commentary, Opinion

**The following article types do not undergo a full peer review:**

D-Type Articles: Core Concept (Young Minds), Correction, Editorial, Field Grand Challenge, New Discovery (Young Minds), Specialty Grand Challenge.

As D-Type articles are published free of charge, these articles are excluded from the Agreement and thus also not included in the invoice data (but reported on separately to CSAL).

**Payment and Advance Payment Scheme**

- a) CSAL opts to make an Advance Payment which will constitute a fund for the Participating Organisations managed by Frontiers, which may be used without limit in time and from which Fixed APCs of Eligible Articles will be debited.
- b) The Advance Payment is an amount as agreed between Frontiers and CSAL and is based on the expected combined (all Participating Organisations) total amount of Fixed APCs for Eligible Article for that year but, in any case, limited to the combined Participating Organisations' maximum budgets for that same year.
- c) Frontiers will invoice and CSAL will pay the Advance Payment (in CHF Swiss Francs) upon signing of the Agreement.
- d) The Advance Payment creates individual pre-payment accounts for each of the Participating Organisations (with CHF Swiss Francs amounts allocated to each Participating Organisation's prepayment account as described in the Advance Payment Scheme in **Annex 4**) managed by Frontiers.
- e) For Eligible Articles, instead of invoicing the authors, the applicable Fixed APCs will be attributed to and settled via the Participating Organisations' pre-payment accounts.
- f) If a Participating Organisation's pre-payment amount is exhausted, CSAL (on behalf of the Participating Organisation) may, but is not obliged to, replenish the pre-payment account. If that account is not replenished, Frontiers will revert (for that Participating Organisation) to invoicing the Eligible Author (even if the Participating Organisation has confirmed the eligibility of an article) for the ordinarily applicable APC (i.e. not the Fixed APC).

- g) At the end of the Agreement, the Advance Payment is compared to the actual combined total amount of Fixed APCs charged for Eligible Articles attributed to the Participating Organisation's pre-payment accounts for that year. Any credit remaining at the effective date of expiration or termination shall be refunded by Frontiers to CSAL within two months after the date of expiration or termination. If there is a net amount owed to Frontiers, CSAL will pay that amount within 30 days of receiving a corresponding invoice issued by Frontiers.

The Advance Payment invoice is payable within thirty days of invoice. The invoice with "Konsortium" as reference will be sent to CSAL at:

*SLSP AG (Swiss Library Service Platform)*  
*Konsortium der Schweizer Hochschulbibliotheken*  
 Kasernenstrasse 77 A/B  
 CH-8004 Zürich

The Participating Organisations will be invoiced by CSAL who will pay Frontiers on their behalf. The liability for the payment stays with each Participating Organisation and each Participating Organisation is only liable for payment of its own Advance Payment as described in **Annex 4**. References to "CSAL" in connection with the payment shall be deemed to refer to each Participating Organisation.

### When a New Participating Organisation Joins Mid-Year

Organisations can join the Agreement as set out in Paragraph 3 in the body of the Agreement, i.e., at any point during the year. If an organisation joins the Agreement and becomes a Participating Organisation (or a group of organisations joins the Agreement and organisations in that group become Participating Organisations) before the end of this Agreement, an additional Advance Payment may be required by Frontiers (reflecting those newly joined Participating Organisations for the remainder of the contract year).

The calculation of and articles considered for such additional Advance Payment will be done in principle the same way as the calculation of the Annual Advance Payment (shown in previous section) and associated data will be provided by Frontiers.

## 1.3 Article Eligibility Verification Procedure and Point of Contact

- a) Frontiers will identify and match Eligible Authors to Participating Organisations in the following ways: 1) Payer selected by the corresponding author 2) corresponding author's email domain as listed per Participating Organisation in Annex 2 and as may be updated from time to time 3) corresponding author's first affiliation. If any of the three match a Participating Organisation, the Participating Organisation is asked to verify the article. All Participating Organisations are included in the selection list of "Payers".

- b) Any article accepted for publication during the term of the Agreement will be covered by this Agreement, thus, the central invoicing process and Fixed APCs will apply to those articles unless refused by the Participating Organisation at its discretion.
- c) The Participating Organisation will provide (and update as needed) via CSAL contact details for a central point of contact for the purpose of the article eligibility verification procedure.
- d) As a mandatory requirement, the Participating Organisations must provide a response (either a confirmation or a refusal) to the verification request sent by Frontiers for each article within 21 days of receipt of such request. A first reminder will be sent by Frontiers after 7 days of this deadline not being met, and a second reminder after 14 days, to the central point of contact. If no response is received in this timeline, Frontiers will assume that the article is not an Eligible Article and will invoice the corresponding author for that article without taking into account the Fixed APC.
- e) When a Participating Organisation has either confirmed its payment of the Fixed APC for an article in error or changes its mind (due, for instance, to a change in its understanding of the situation) and therefore changes its response from 'confirm' to 'decline', Frontiers will endeavour to cooperate by instead invoicing the author(s) or (if applicable) another organisation. However, if Frontiers has relied on the confirmation of a Participating Organisation and is unable to obtain payment from an alternative source following such a change in response, it asks that responsibility is taken according to the original response (i.e., the relevant Fixed APC is attributed to the Participating Organisation).
- f) The verification procedure takes place through an online portal which access is granted to the Participating Organisations by Frontiers. For the avoidance of doubts, access to the online portal remains available to the Participating Organisation for the entire term of their participation in this Agreement and for 30 days thereafter.
- g) The verification procedure will not in any way affect the publication process, and for accepted articles, publication happens without undue delay following the production process.

## 1.4 Funding Acknowledgement

Frontiers uses all reasonable endeavours to include, as defined by ESAC, a funding acknowledgement to all articles whose APCs are paid for by a Participating Institution centrally under this Agreement: Open Access Funding by [Name of the Participating Institution].

## 1.5 Copyright License and Depositing Articles in Repositories

- a) Authors (or their organisations) retain their copyright.
- b) Authors and Participating Organisations may archive, under the CC-BY license, any version of the publication and without any delay in any other repository or website.
- c) Frontiers publishes all content on its website <https://www.frontiersin.org/> under the Creative Commons "Attribution" (CC-BY) license, currently version 4.0 and automatically updated as and when updated by the Creative Commons organization. For articles published prior to July 2012, Frontiers published under the Creative Commons non-

commercial (CC-NC) licence.

- d) Frontiers provides website uptime in accordance with industry standards and will restore access as soon as possible in the event of an interruption or suspension.
- e) Nothing in this Agreement shall be taken to restrict, limit or curtail any provisions of the CC BY 4.0 (and automatically updated as and when updated by the Creative Commons organization) licenses used for publication by Frontiers of Eligible Articles.
- f) Frontiers permits CSAL and Participating Organisations to release metadata of published Frontiers articles using a Creative Commons License CC0.
- g) Frontiers publishes all content with a DOI creating a durable link to the content.
- h) Frontiers ensures that article metadata is submitted immediately upon publication to CrossRef, including licence information: the license URL element (<license\_ref>) pointing to the applicable Creative Commons licence URL and the <applies\_to> attribute with the value <vor> (Version of record). See: <https://www.crossref.org/education/content-registration/administrative-metadata/license-information> (this information is current as of January 2022, and future evolutions of CrossRef metadata should be taken into account by Frontiers).
- i) Frontiers automatically submits its content to various third-party repositories. To some repositories all peer-reviewed content is submitted; for example, the full-text of all articles is submitted to CLOCKSS for long term archiving and preservation. Abstracts and metadata of Frontiers journals are deposited in the DOAJ.
- j) Depending on the journal, where relevant, content is also submitted to (or is indexed by) other repositories, such as PubMed Central, Europe PubMed Central, Google Scholar (all journals, crawled by Google), CAS, OpenAIRE, Web of Science, Scopus, Embase, Ei Compendex, Semantic Scholar, PsychINFO, Ulrich's Periodicals Directory, etc.
- k) The repositories in which Frontiers content is deposited are dynamic, and no repository gives any guarantee that it will maintain its relationship with any publisher, but Frontiers strives to ensure that all its journals, including new journals, are referenced in all major repositories, and in particular the DOAJ (Plan S' journal checker tool uses the DOAJ as well).

## 1.6 Frontiers' Editorial Processes and Other Terms

All articles submitted will remain subject to Frontiers' editorial processes and general policies and conditions, including authors' confirmation on behalf of the copyright owner(s) that they accept the CC-BY licensing terms when submitting their article. The specific arrangements set out in this Agreement have no effect on the peer-review, acceptance, rejection, and retraction processes, and general policies and conditions in place at Frontiers.

## 1.7 Reporting

Frontiers will make available to the Participating Organisations the following information about Eligible Articles:

- i. article title,

- ii. DOI,
- iii. link to the published article,
- iv. journal title,
- v. APC, applied discounts, final amount invoiced.
- vi. corresponding author names and email addresses, co-author names,
- vii. research funding information (research funder and grant ID),
- viii. date of eligibility verification by the Participating Organisation, and
- ix. the article submission, acceptance, and publication date,
- x. article type.

Frontiers will also provide a report to CSAL at the end of this Agreement covering all Participating Organisations and Eligible Articles. Upon request Frontiers can provide an intermediate report during this Agreement.

This Agreement, the agreed Fixed APCs, and the actual paid APCs, can be made public by Frontiers, as well as by CSAL and each Participating Organisation.

## Annex 2 – List of Participating Organisations

Participating Organisation	
University of Bern	
University of Geneva incl. Hospital	
University of Lausanne incl. Hospital	
Haute école pédagogique du canton de Vaud (HEP-VD)	
University of Neuchatel	
Università della Svizzera italiana	
EPF Lausanne	
ETH Zurich	
<i>Lib4RI – Library for the Research Institutes within the ETH Domain:</i>	
<i>Swiss Federal Institute of Aquatic Science and Technology</i>	
<i>Swiss Federal Laboratories for Materials Science and Technology</i>	
<i>Paul Scherrer Institute</i>	
<i>Swiss Federal Institute for Forest, Snow and Landscape Research</i>	
Lucerne University of Applied Sciences and Arts	
Zurich University of Applied Sciences	
Agroscope	

## **Annex 3 – CSAL Members and Customers**

The full lists of CSAL members and customers can be found here:

<https://consortium.ch/primaerpartner>

<https://consortium.ch/sekundaerpartner/>

## Annex 4 – Advance Payment Scheme and Fees

Participating Organisation		
ETH Zurich		
University of Lausanne		
University of Bern		
University of Geneva incl. Hospital		
EPF Lausanne		
<b>Lib4RI – Library for the Research</b>		
<b>Institutes within the ETH Domain:</b>		
• Swiss Federal Institute of Aquatic Science and Technology		
• Swiss Federal Laboratories for Materials Science and Technology		
• Paul Scherrer Institute		
• Swiss Federal Institute for Forest, Snow and Landscape Research		
Zurich University of Applied Sciences		
Università della Svizzera italiana		
Lucerne University of Applied Sciences and Arts		
Haute école pédagogique du canton de Vaud		
University of Neuchâtel		
Agroscope		
Advance Payment amount to be paid by CSAL to Frontiers (excluding any applicable VAT (7,7%))	CHF 752.301 (SEVEN HUNDRED AND FIFTY-TWO THOUSAND AND THREE HUNDRED AND ONE SWISS FRANCS)	

\* Any amounts due for 2023 will be set off against unused funds from their 2022 Pre-payment account rather than repaid.

\*\* Université de Neuchâtel did not approve any articles in 2022 and Agroscope was not part of the agreement. The forecast is thus 0.

### Fixed APCs:

- Category 1: CHF 2,272 per published Eligible Article
- Category 2: CHF 2,030 per published Eligible Article
- Category 3: CHF 1,067 per published Eligible Article

## Annex 5 – Journal List (on 1 Jan 2023)

Journals covered by this Agreement are listed in this Annex. Annex 5 may be updated from time to time. For the avoidance of doubts, any new journals are covered by this Agreement from their launch date unless stated otherwise.

The table 1 below provides information on Frontiers' Owned Journals that are covered by this Agreement. Any new Frontiers owned journal launched during the term of this Agreement will be automatically added to this Agreement.

*Table 1: Frontiers owned Journals:*

The table 2 below provides information on Frontiers' Hosted Journals that are covered by this Agreement.

Frontiers strives to ensure that all its Hosted Journals, including new Hosted Journals are part of this Agreement, but Frontiers cannot give any guarantee as the decision to participate is up to the discretion of the owner of the Hosted Journal (if accepted, the new Hosted journal launched during the term of this Agreement will be automatically added to this Agreement).

Hosted Journals may also decide to discontinue or transfer their journals to another publisher at any time. In such instances, Frontiers shall not be obliged to publish any paper initially submitted by an Eligible Author to a Hosted Journal unless the article has already been accepted for publication.

*Table 2: Hosted Journals:*

ISSN	Journal	URL
<b>Coming soon</b>	Acta Virologica	n.a. (opens for submissions April 5th, launch 1st May 2023)
<b>2674-0001</b>	Advances in Drug and Alcohol Research	<a href="https://www.frontierspartnerships.org/journals/advances-in-drug-and-alcohol-research">https://www.frontierspartnerships.org/journals/advances-in-drug-and-alcohol-research</a>
<b>2253-6574</b>	Spanish Journal of Soil Science	<a href="https://www.frontierspartnerships.org/journals/spanish-journal-of-soil-science">https://www.frontierspartnerships.org/journals/spanish-journal-of-soil-science</a>
<b>2813-2106</b>	Dystonia	<a href="https://www.frontierspartnerships.org/journals/dystonia">https://www.frontierspartnerships.org/journals/dystonia</a>
<b>1661-8564</b>	International Journal of Public Health	<a href="https://www.frontiersin.org/journals/international-journal-of-public-health">https://www.frontiersin.org/journals/international-journal-of-public-health</a>
<b>2813-2092</b>	Journal of Abdominal Wall Surgery	<a href="https://www.frontierspartnerships.org/journals/journal-of-abdominal-wall-surgery">https://www.frontierspartnerships.org/journals/journal-of-abdominal-wall-surgery</a>

<b>2474-0896</b>	British Journal of Biomedical Science	<a href="https://www.frontierspartnerships.org/journals/british-journal-of-biomedical-science">https://www.frontierspartnerships.org/journals/british-journal-of-biomedical-science</a>
