APPENDIX A Consortium's Participating Institutions and/or Sites

To accommodate the internal accounting and reporting requirements of the respective parties, this Amendment sets forth two distinct fee allocation models for the 2026 agreement term, each reflecting a different methodology for distributing fees among the participating institutions:

- **Fee Allocation as Calculated by the Licensee** – Represents the allocation of fees among participating Institutions and/or Sites as determined by the Licensee. (See Table 1: Swiss Consortium Fee Allocation)

	Read 2026	Publish 2026	Read & Publish 2026	Backfile Fee 2026	Total 2026

Total	\$222,207.00	\$222,207.00	\$444,414.00	\$37,300.00	\$481,714.00

** Fees per Participating Site (as noted in Appendix A) may be modified by mutual consent, by amendment; however, the Fee will remain as noted unless changed according to Section 7 of the Standard Terms & Conditions. The "CSAL 2026 R&P Fees" shown in this Appendix A are provided solely for Licensee's invoicing purposes and do not reflect the prices upon which any future renewals will be based.

- **Fee Allocation as Calculated by AIPP** – Represents the allocation of fees among participating Institutions and/or Sites as determined by AIPP's internal methodology. (See Table 2: AIPP Fee Allocation)

Although the allocation of fees to individual institutions varies between the two models, the aggregate total fee across all participating institutions remains identical under both models. These parallel fee breakdowns are included for informational and administrative purposes only and are intended to reflect the respective internal frameworks of AIPP and the Licensee. This Amendment does not modify the total financial obligation or any other material terms and conditions set forth in the original Agreement.
